**RFP#14002**

**Alternative Shoreline Management Phase 2:** The Mississippi Department of Marine Resources is seeking services of a consultant to develop a Final Mississippi Gulf Coast Alternative Shoreline Management Planning and Design Manual.

Question	RFP Section	RFP Page	Question	MDMR Response
1	n/a	n/a	Since this does indicate it is a “Phase 2”, will the deliverables from Phase 1 be made available to interested responders so we can gain a better understanding of what needs to be done to complete Phase 2?	A draft of the plan from Phase 1 will be available upon requests emailed to <a href="mailto:beth.roberts@dmr.ms.gov">beth.roberts@dmr.ms.gov</a>
2			The draft Manual I received has only 4 pages, including photos. Is that the entire Draft for Phase I? Also, the Table 1 spreadsheet describing stabilization methods is about half a page. Surely there is more than this. Wouldn't there be at least a report of the assessment and inventory field work that has been done in Phase I? It seems that it would be	The draft Manual is only 4 pages – it is a draft, so the Final requested in this RFP will fill in much more substantive information. The Table attached to the draft Manual has seven (7) columns and is on a single page. The Inventory and Assessment was completed in Phase 1 and has
